

Taking an inside leg measurement

Here's how to measure your child's inseam as accurately as possible:

- 1 Have your child stand up straight against a wall in socks and wearing trousers likely to be worn while riding a bike.
- 2 Take a hardback book and place the spine of the book, facing upward, at your child's crotch with the same slight pressure that you'd get on the saddle while riding.
- 3 Mark the edge of the book's spine on the wall in pencil.
- 4 Now measure the distance from the floor to the marking as vertically as possible with a measuring stick or tape measure. This measurement in centimetres is your child's inseam.
- 5 Now, you can compare the measurement with the minimum inseam lengths in our table.

Model	Minimum length	Height
woom GO 1	N/A	82-100 cm
woom GO 1 PLUS	35.5 cm	95-110 cm
woom GO 2	37.5 cm	95-110 cm
woom GO 3	43.5 cm	105-120 cm
woom GO 3 AUTOMAGIC	43.5 cm	105-120 cm
woom GO 4	51.5 cm	115-130 cm
woom EXPLORE 4	56.1 cm	115-130 cm
woom EXPLORE 5	60 cm	125-145 cm
woom EXPLORE 6	70 cm	140-165 cm
woom OFF 4	50.5 cm	118-130 cm
woom OFF 5	62.5 cm	128-145 cm
woom OFF 6	68.5 cm	140-165 cm
woom OFF AIR 4	50.5 cm	118-130 cm
woom OFF AIR 5	62.5 cm	128-145 cm
woom OFF AIR 6	68.5 cm	140-165 cm
woom NOW 4	55.5 cm	118-131 cm
woom NOW 5	57 cm	125-147 cm
woom NOW 6	65.5 cm	142-167 cm
woom UP 5	62.5 cm	128-145 cm
woom UP 6	68.5 cm	140-165 cm
